CAREER OBJECTIVE

Motivated and enthusiastic Computer Science graduate seeking an entry-level opportunity as an AI/ML Engineer. Strong foundation in Python, Java, C++, C, Data Structures and Algorithms, Object-Oriented Programming. Eager to apply technical knowledge, develop real-world software solutions, and contribute to innovative projects while continuously enhancing technical and problem-solving skills.

TECHNICAL SKILLS

Programming Languages	: Java, Python, C++, C
Core Computer Science	: Data Structures & Algorithms, OOPs, Computer Networks
Backend	: JWT, API Development, RESTful APIs
Frontend	: JavaScript, React.js, Node.js, Express.js
Databases	: SQL, MongoDB
Software Engineering	: Software Integration, Debugging & Testing, SDLC, Agile, CI/CD, Unit Testing
Version Control	: Git, GitHub
ML & Deep Learning	: XGBoost, Random Forest, Decision Tree, CNN, MLP, FNN, TensorFlow, PyTorch, scikit-learn, NLP, Pandas, NumPy, Docker, FastAPI

TRAINING & PROJECTS

1. FEDERATED LEARNING

- Led a federated learning pipeline that hit 90% accuracy predicting 6G beamforming using XGBoost, Random Forest, and Decision Tree all while training across decentralized systems.
- Rolled out an inference engine blending FNN, CNN, and MLP algorithms, hitting almost perfect precision-recall balance across varied edge-client setups.
- XGBoost and Random Forest tree based models beat out deep learning approaches, hitting perfect 1.00 F1-scores, converged via federated averaging, without compromising data sovereignty.

2. RIDE SHARING APPLICATION

- Built a responsive frontend with React.js, CSS3, and Tailwind CSS—fully compatible across 99% of devices, thanks to reusable components and smooth state handling.
- Integrated Google Maps API and geolocation to offer real-time ride tracking with under-2-second response, showing live routes and matching drivers to riders instantly.
- The MongoDB schema was built to cut query response time by 40%, letting us store user profiles and transaction data smoothly—with 99.9% consistency guaranteed.

EDUCATION

B.Tech in Computer Science Engineering

Madanapalle Institute of Technology & Science, Andhra Pradesh
2023–2026

CGPA: 8.48 / 10

Diploma in Computer Engineering

Govt. Polytechnic, Vempalli, Andhra Pradesh
2020–2023

Percentage: 87.78%

SSC (Matriculation)

KGBV, Peddapasupula, Andhra Pradesh
2019–2020

Percentage: 99.6%

CERTIFICATIONS

Java Certification — edX

Mastered OOP, multithreading, and exception handling for enterprise backend development.

MERN Stack Bootcamp — CodeOn Technologies

Skilled in MongoDB, Express.js, React.js, Node.js, REST APIs, JWT authentication.

INNO SPARK 1.0 — Participation Certificate (2024)

Competed in a 24-hour innovation hackathon with agile prototyping and collaboration.

Coordinated Project Expo at ASHV 2K25

Spearheaded a college-wide tech expo, managing 20+ projects, logistics, and judging panels.
